## Veterinary Report

LYDIAS ART, 2019 bay standardbred colt  
Brand: 199827  
Owner: Breckon Farms Ltd.

Tuesday, 9 February 2021

The aforementioned colt was admitted to Waikato Equine Veterinary Centre on Wednesday, 4 November 2020 with a history of osteochondral changes to the right hock as detected on screening radiography following the onset of a hock swelling. In order to maximise any future racing potential it was advised to surgically explore the joint and treat any lesions as appropriate.

The colt had an uneventful recovery and no complications were noted during the post operative period.

Radiographs were obtained on Tuesday, 2 February 2021 to check the previous surgical site. These showed clean surgical margins and a good outcome from surgery. The horse should be considered a normal risk for racing with respect to the to the outcome of the right hock disorder.

This report does not constitute a full appraisal of the horse for sale and is limited to an opinion and response to treatment relating to the right hock radiographs only.
