

VETERINARY REPORT

KEEP IT CLASSY, 2019 bay Standardbred filly
Owner / Agent: Breckon Farms

Tuesday, 9 February 2021

The aforementioned filly was admitted to Waikato Equine Veterinary Centre on Wednesday, 24 June 2020 for treatment of an osteochondral changes of the left hock as detected on screening radiography for investigations of a joint swelling. In order to maximise any future racing potential it was advised to surgically explore the joint and treat any lesions as appropriate.

The filly had an uneventful recovery and no complications were noted during the post-operative period.

Radiographs were obtained on Tuesday, 2 February 2021 to assess the response to treatment. These showed excellent healing of the surgical site. The horse should be considered a normal risk for purchase and racing, in relation to the response to treatment of the left hock.

This report does not constitute a full appraisal of the horse for sale and is limited to an opinion of the left hock radiographs only.
