

## VETERINARY REPORT

CAPITAL GAINS, 2019 bay colt  
Brand - 199829  
Owner/Agent: Breckon Farms

Tuesday, 9 February 2021

The aforementioned colt was admitted to Waikato Equine Veterinary Centre on Tuesday, 2 June 2020 (RH) and again on Thursday, 9 July 2020 (LH) for treatment of osteochondral changes of the right and left hock as detected on screening radiography following the onset of swollen joints. In order to maximise any future racing potential it was advised to surgically explore the respective joints and treat any lesions as appropriate.

The colt had an uneventful recovery and no complications were noted during the post operative period.

Radiographs were obtained on Tuesday, 2 February 2021 to assess the response to treatment. These showed excellent healing of the surgical sites. The horse should be considered a normal risk for purchase based on the response to treatment. This report does not constitute a full appraisal of the horse for sale and is limited to an opinion of the hock radiographs only.
